LICENSES AND CERTIFICATIONS

CompTIA Security+ (SY0-601)

SKILLS

- **Languages:** Java, Typescript, C, Python, SQL, Bash
- **Frameworks / Libraries:** Spring, React, Angular
- **APIs / Data:** RESTful API, GraphQL
- **DevOps & Infrastructure:** Docker, Podman, Kubernetes, Ansible
- **Tools & Systems:** Linux/Unix, Git

WORK EXPERIENCE

High Rez Consulting – Carderock, MD

Software Engineer: 2023 – Current

- Led the architecture, design, and implementation of a next-generation Spring Boot / PostgreSQL / GraphQL / REST data service, replacing legacy flat-file systems with a robust, validated, and scalable solution to support mission-critical data operations.
- Directed the end-to-end development lifecycle, from initial design and schema modeling to testing, deployment, and integration, ensuring seamless adoption into the upcoming product line.
- Engineered backward compatibility layers and data converters to enable interoperability with legacy products using the previous flat-file format.
- Developed and maintained software for undersea acoustic signal processing and sensor performance prediction across multiple product baselines vended to operational end-users.
- Implemented proactive security updates and library modernizations to mitigate vulnerabilities (CVEs) and maintain compliance with evolving cybersecurity standards and requirements.
- Provided technical leadership and support during system integration, validation, and end-user onboarding to ensure reliable and consistent mission outcomes.
- Served as a point of technical expertise and knowledge on the data domain and its evolution within the organization, becoming a critical resource for cross-team coordination and decision-making.

EDUCATION

George Mason University, Fairfax, VA

Bachelor of Science in Computer Science (BSc)

Honors: Mason Distinction Scholarship, Dean's List (4 years)

Relevant Coursework: Data Structures, Object-Oriented Design, Database Management, Assembly Language Programming, Software Engineering, Analysis of Algorithms, Secure Programming, Data Mining
